# Using Your 21<sup>st</sup> Century Scholarship

## How the 21<sup>st</sup> Century Scholarship works:

- Can be used to pay regularly assessed **tuition and fees** at a public college in Indiana
- Does not cover room, board, books, or other expenses associated with college enrollment;
- Valid for **8 semesters** of full-time enrollment at a four-year institution (which may initially include 4 semesters at a two-year institution, or terminate with completion of a two-year degree);
- Students must be enrolled **full-time** within one year of graduating high school;
- Funds are disbursed directly to the institution on behalf of the student, **NOT paid directly to the student**; the 21<sup>st</sup> Century Scholarship should be listed on students' award notification letter and **applied directly to students' bursar accounts**.

## In order to receive the full 21<sup>st</sup> Century Scholarship Award each year, students **MUST**:

1

**File a FAFSA by Indiana's March 10<sup>th</sup> priority deadline and make all corrections by May 15<sup>th</sup>.**

2

**Complete at least 30 credit hours by the end of the first academic year; 60 credit hours by the end of the second academic year; and 90 credit hours by the end of the third academic year.**

Credit hour requirements can include college credit earned in high school and in summer college courses, although the 21<sup>st</sup> Century Scholarship cannot be used toward tuition for summer coursework.

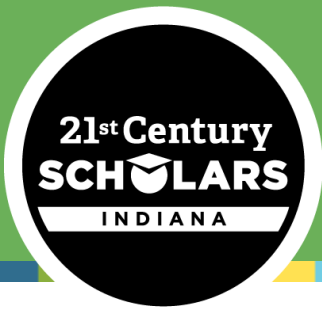

21<sup>st</sup> Century Scholars who complete fewer credits may be eligible for a reduced scholarship award (about 35 percent of the full award) if they complete between:

- 24-29 credits by the end of the first year;
- 48-59 credits by the end of the second year;
- 72-89 credits by the end of the third year.

Students will not be eligible to receive an award if they complete *fewer than*:

- 24 credits by the end of the first year;
- 48 credits by the end of the second year;
- 72 credits by the end of the third year.

Students who do not complete at least 30 credits each academic year for the first three years of college can earn their way back into the program by taking summer courses or additional credits during the academic year to catch up to required levels.

## **Make Satisfactory Academic Progress (SAP) as determined by their institution.**

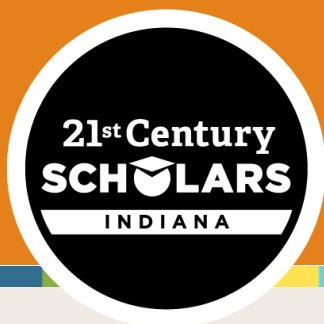

At Indiana's public colleges and universities, making SAP includes staying on pace to graduate and completing a degree within a maximum time frame. SAP also includes maintaining a minimum cumulative grade point average (GPA) and successfully completing a percentage of cumulative attempted coursework. Institutions typically set a limit on incomplete and withdrawals from courses.

Each institution determines its own SAP guidelines. The table that follows includes cumulative GPA requirements, as well as the percentage of cumulative attempted coursework that students must successfully complete, for each public institution in Indiana. This table does NOT include individual institution requirements for staying on pace to graduation and maximum time frames for earning a degree, since, per program requirements, all 21<sup>st</sup> Century Scholars must complete 30 credit hours per academic year (see "2" above) and to earn a degree within four years to continue earning their 21<sup>st</sup> Century Scholarship.

There is no separate application for the Covenant. Scholars who meet eligibility requirements are automatically considered for the award. The amount of the Covenant award can vary depending on the total amount of gift aid that a Scholar receives from any/all sources and his or her family's estimated family contribution (EFC) as determined by their FAFSA.
